

BRING THE RAIN

Bring the Rain was commissioned in 2009 for Mrs. Sue Bergren and her daughter, Maggie Bergren, for carillon and multiple percussion (respectively). This has been composed with the premiere in mind (June, 2010) in Naperville's 130 ft. high Moser Tower and Millenium Carillon – a bell tower of 72 bells, the largest one weighing in at six tons. There is a live video element as mother and daughter perform together – roughly twenty feet away from each other – for an audience of professional carilloneurs gathered in convention that week. Do visit www.naperville-carillon.org for more information about the structure.

Movements are entitled; *Grace, Turn, All Creatures of Our God and King, 10,000 Flashlights, and The Solitary Figure With an Umbrella.*
